INDEX OF AUTHORS

ABERER, W, 87

BERTHOLDT, G. 49
CATT, J. W. 347
CHI, E. Y. 33
CLAVIEZ, M. 49

DE GROOT, E. J. 1, 7
DURNING, P. 235

EDWARDS, P. A. W, 321
EMGSTRÖM, W. 361, 375
EYAL-GILADI, H. 399

FEINSTEIN, N. 399
FELTNER, D. E. 121
FREIBURG, M. 389
FRIEDLANDER, M. 399
FULTON, A. B. 335

GERISCH, G. 49
GERSHON, M. D. 187
GILBERT, M. 335

HARRISON, F. L. 347
HEATH, J. K. 361
HEMBRY, R. M. 105
HENDERSON, W. R. 33
HERMAN, I. M. 19
HERRMANN, H. 87
HESLOP-HARRISON, J. 135
HESLOP-HARRISON, Y. 135
HUANG, Y. L. 187
HYAMS, J. S. 299

JEPPESEN, P. 245
JOHNSON, R. T. 159

KALLENBACH, R. J. 261
KANBE, T. 207
KUROIWA, T. 207

LARSSON, O. 375
LIU, K. P. 187

MAJDIC, O. 87
MARASCO, W. A. 121
MITCHELL, E. J. 279
MORTEN, H. 245
MULLINGER, A. M. 159
MURAKAMI, K. 311
MURPHY, G. 105

ORMEROD, M. G. 321

PAYETTE, R. F. 187
PAYNE, A. W. R. 321

RAVEH, D. 399
REES, A. R. 361
REYNOLDS, J. J. 105
RUSHTON, G. 221, 235

SCHOR, A. M. 221, 235
SCHOR, S. L. 221, 235
SCHULER, G . 87
SCHWEIGER, H.-G. 1, 7
SKILTON, R. A. 321
SMITH, L. 221
STADLER, J. 49

TAMIR, H. 187
TANABE, K. 311
TANAKA, K. 207

VARANI, J. 121

WARD, P. A. 121
WEINHART, U. 49
WICHE, G. 87
WOLFE, J. 69

YOUNG, W. C. 19

ZETTERBERG, A. 375
ZIMMERMAN, A. M. 279

INDEX OF SUBJECTS

Acetabularia
ribonucleoside reductase regulation: DE GROOT & SCHWEIGER I 1
ribonucleoside reduction: DE GROOT & SCHWEIGER II 7
Actin
in *Tetrahymena*, biochemical evidence: MITCHELL & ZIMMERMAN 279
Annulate lamellae
nuclear envelope and glycogen metabolism in chick embryo: EYAL-GILADI, FEINSTEIN, FRIEDLANDER & RAVEH 399
Anti-actin
in extracellular matrix modulation of endothelial cell shape and motility following injury *in vitro*: YOUNG & HERMAN 19
Antigen translocation
of *Plasmodium* into mouse erythrocyte membrane: MURAKAMI & TANABE 311
Aster
initiation and development in sea-urchin eggs: KALLENBACH 261
Axonemes
of *Marsilea* bind dynein of *Tetrahymena*: HYAMS 299

Candida albicans
mitochondrial behaviour in cell division and germ tube formation: TANAKA, KANBE & KUROIWA 207
Cell adhesion
in a *Dictyostelium* mutant: GERISCH, WEINHART, BERTHOLDT, CLAVIEZ & STADLER 49
Cell cycle control
effects of growth factors: LARSSON, ZETTERBERG & ENGSTRÖM 375
Cell division
mitochondrial behaviour in *Candida albicans*: TANAKA, KANBE & KUROIWA 207
Cell junction
in conjugating *Tetrahymena*: WOLFE 69
Cell migration
foetal-like, of skin cancer fibroblasts on collagen: SCHOR, SCHOR, DURNING & RUSHTON 235
of different fibroblasts on collagen gels: SCHOR, SCHOR, RUSHTON & SMITH 221
Centrioles
in cytaster development in sea-urchin eggs: KALLENBACH 261
Chick embryo
glycogen metabolism and nuclear envelope – annulate lamella system: EYAL-GILADI, FEINSTEIN, FRIEDLANDER & RAVEH 399
Chromosome damage
by ultraviolet light and repair synthesis inhibitors: MULLINGER & JOHNSON 159
Chromosome decondensation
in metaphase cells: MULLINGER & JOHNSON 159
Chromosome fragmentation
in metaphase cells: MULLINGER & JOHNSON 159
Chromosomes
dehistonized, metaphase, effects of sulphydryl reagents: JEPPESEN & MORTEN 245
Collagenase
inhibitors closely related to tissue inhibitor of metalloproteinases: HEMBRY, MURPHY & REYNOLDS 105
Collagen gels
foetal behaviour of skin cancer fibroblasts on: SCHOR, SCHOR, DURNING & RUSHTON 235
migration of fibroblasts, adult, foetal and transformed: SCHOR, SCHOR, RUSHTON & SMITH 221
Conjugation
in *Tetrahymena*: WOLFE 69
Connective tissue
association with endogenous lectin: CATT & HARRISON 347
Cytidine reductase
in *Acetabularia*: DE GROOT & SCHWEIGER 1
Cytoskeleton
reorganization in conjugating *Tetrahymena*: WOLFE 69
specificity, in gerbil fibroma cells: GILBERT & FULTON 335
stability, in gerbil fibroma cells: GILBERT & FULTON 335

Degranulation
of human eosinophils: HENDERSON & CHI 33
Dehistonized
metaphase chromosomes, effects of sulphydryl reagents: JEPPESEN & MORTEN 245
DNA inhibition
in metaphase cells: MULLINGER & JOHNSON 159

DNA repair
in metaphase cells: MULLINGER & JOHNSON 159
DNase-binding protein
in *Tetrahymena*: MITCHELL & ZIMMERMAN 279
Dynein
of *Tetrahymena* binds axonemes of *Marsilea* lacking outer dynein arm: HYAMS 299

Endonuclear bacteria
in *Paramecium*: FREIBURG 389
Endothelium
modulation by extracellular matrix after injury *in vitro*: YOUNG & HERMAN 19
Eosinophils
human, ultrastructure and morphometry: HENDERSON & CHI 33
Epithelial differentiation
role of endogenous lectins: CATT & HARRISON 347
Eucalyptus
germination of stress-tolerant pollen: HESLOP-HARRISON & HESLOP-HARRISON 135

Fibroblasts
adult, foetal and transformed, different migratory phenotypes on collagen gels: SCHOR, SCHOR, RUSHTON & SMITH 221
from skin cancer, with foetal migratory behaviour: SCHOR, SCHOR, DURNING & RUSHTON 235
Flow cytometry
in study of antigenic heterogeneity of breast cell lines: EDWARDS, SKILTON, PAYNE & ORMEROD 321
Formyl-peptide chemotaxis receptor
binding by metastatic tumour cells: MARASCO, WARD, FELTNER & VARANI 121

Germ tube
formation in *Candida albicans*, mitochondrial behaviour: TANAKA, KANBE & KUROIWA 207
Glucose-6-phosphatase
cytochemical localization in chick embryo: EYAL-GILADI, FEINSTEIN, FRIEDLANDER & RAVEH 399
Glycoproteins
in cell adhesion of a *Dictyostelium* mutant: GERISCH, WEINHART, BERTHOLDT, CLAVIEZ & STADLER 49
Growth factors
effects on cell cycle progression: LARSSON, ZETTERBERG & ENGSTRÖM 375
requirement in relation to membrane receptor expression in teratocarcinoma: ENGSTRÖM, REES & HEATH 361

Immunofluorescence
in study of human tumour cell lines: EDWARDS, SKILTON, PAYNE & ORMEROD 321
Immunolocalization
of TIMP in human cells: HEMBRY, MURPHY & REYNOLDS 105
Injury
in vitro, endothelial cell shape and motility, modulation by extracellular matrix: YOUNG & HERMAN 19
Intermediate filament
protein vimentin, in fibroblasts: HERRMANN, ABERER, MAJDIC, SCHULER & WICHE 87
Invasion
of mouse erythrocytes by *Plasmodium*: MURAKAMI & TANABE 311

Lectin
endogenous, selective association with connective tissues: CATT & HARRISON 347
Leucocytes
associated with human serotonectin: TAMIR, PAYETTE, HUANG, LIU & GERSHON 187
Leukaemia cell line
surface protein antibody crossreacts with fibroblast vimentin: HERRMANN, ABERER, MAJDIC, SCHULER & WICHE 87

Macronucleus
isolation in *Paramecium* infected with *Holospora*: FREIBURG 389
Marsilea vestita
axonemes lacking outer arms bind *Tetrahymena* dynein: HYAMS 299
Membrane fusion
in conjugating *Tetrahymena*: WOLFE 69
Mesenchyme
role of endogenous lectins in differentiation: CATT & HARRISON 347
Metaphase
chromosomes, dehistonized, effects of sulphydryl reagents: JEPPESEN & MORTEN 245
Mitochondria
three-dimensional behaviour during cell division in *Candida albicans*: TANAKA, KANBE & KUROIWA 207
Monensin
used to demonstrate intracellular accumulation of TIMP: HEMBRY, MURPHY & REYNOLDS 105

Monoclonal antibodies
in study of cell adhesion of *Dictyostelium*: GERISCH, WEINHART, BERTHOLDT, CLAVIEZ & STADLER 49
in study of *Plasmodium* antigen that translocates into mouse erythrocyte membrane: MURAKAMI & TANABE 311
to leukaemia cell surface protein crossreact with vimentin: HERRMANN, ABERER, MAJDIC, SCHULER & WICHE 87
Morphometry
in study of human eosinophil degradation: HENDERSON & CHI 33

Non-myelogenous cells
evidence for a formyl-peptide receptor: MARASCO, WARD, FELTNER & VARANI 121

Paramecium
infected with *Holospora*, isolation and characterization: FREIBURG 389
Parasitic protozoa
in mouse erythrocytes: MURAKAMI & TANABE 311
Parthenogenetic activation
in sea-urchin eggs: KALLENBACH 261
Peripheral membrane glycoprotein
associated with platelets and leucocytes: TAMIR, PAYETTE, HUANG, LIU & GERSHON 187
Plasmodium yoelii
antigen translocates into mouse erythrocyte membrane in host cell: MURAKAMI & TANABE 311
Platelets
associated with human serotonectin: TAMIR, PAYETTE, HUANG, LIU & GERSHON 187
Pollen
stress-tolerant, germination in *Eucalyptus*: HESLOP-HARRISON & HESLOP-HARRISON 135
Proteinase activity
in infected macronuclei of *Paramecium*: FREIBURG 389
Proteinase inhibitor
in human tissues, characterization: HEMBRY, MURPHY & REYNOLDS 105

Ribonucleoside reductase
regulation in *Acetabularia*: DE GROOT & SCHWEIGER 1
RNA synthesis
in *Paramecium* infected with *Holospora*: FREIBURG 389

Sea-urchin eggs
initiation and development of cytasters: KALLENBACH 261
SEM
in study of human eosinophil degradation: HENDERSON & CHI 33
Serotonectin
human, binds serotonin and is associated with platelets and leucocytes: TAMIR, PAYETTE, HUANG, LIU & GERSHON 187
Serotonin
binds human serotonectin: TAMIR, PAYETTE, HUANG, LIU & GERSHON 187
Serum-free medium
growth of human carcinoma cells in: ENGSTRÖM, REES & HEATH 361
Smooth muscle
of rabbit, localization of endogenous lectin: CATT & HARRISON 347
Stimulus-coupled responses
in metastatic tumour cells: MARASCO, WARD, FELTNER & VARANI 121
Stress tolerance
of *Eucalyptus* pollen, germination: HESLOP-HARRISON & HESLOP-HARRISON 135
Sulphydryl reagents
effects on dehistonized metaphase chromosomes: JEPPESEN & MORTEN 245
Surface antigen
of leukaemia cell line: HERRMANN, ABERER, MAJDIC, SCHULER & WICHE 87

TEM
in study of human eosinophil degradation: HENDERSON & CHI 33
Teratocarcinoma
proliferation in serum-free medium: ENGSTRÖM, REES & HEATH 361
Tetrahymena
biochemical evidence for actin: MITCHELL & ZIMMERMAN 279
cytoskeletal reorganization and membrane fusion during conjugation: WOLFE 69
dynein binds *Marsilea* axonemes lacking outer dynein arms: HYAMS 299
Three-dimensional reconstruction
of mitochondrial behaviour in *Candida albicans* during cell division and germ tube formation: TANAKA, KANBE & KUROIWA 207
TIMP
localization in human cells: HEMBRY, MURPHY & REYNOLDS 105

Tumour cells
human, antigenic heterogeneity: EDWARDS, SKILTON, PAYNE & ORMEROD 321

Vimentin
crossreacts with monoclonal antibody to leukaemia cell surface protein: HERRMANN, ABERER, MAJDIC, SCHULER & WICHE 87
